

Florida DOE's "Inventory of Teacher Technology Skills"

~Instructions~

All Brevard teachers are required to complete the Inventory for Teacher Technology Skills (ITTS) survey. The Inventory for Teacher Technology Skills survey is now open. **All surveys must be completed by April 25, 2008.** You may access the survey at: <http://www.flinnovates.org/inventory/index.asp>

If you took the ITTS last year, when you arrive at the login page the login process is as follows...

1. Select Brevard as your school district.
2. Select the name of your school.
(If you have transferred to another school please email Ginger Wright with your present school name and she will transfer your account.)
3. Select your email account from the list.
(If your email address is not listed, please go to Step #1 in the list below.)
4. Enter your password (the one you used on this survey last year)
(If you forgot your password, click the "Forgot your password?" button (right side), then follow the instructions. Your ITTS password will be emailed to you.)
5. Begin / Continue your skills inventory.

If you are taking the ITTS for the first time and do not have an account, when you arrive at the login page the login process is as follows...

1. Choose "Create New Account."
2. The password for logging in the first time is: **brevard**
3. This will take you to a screen where you will create an account by typing your:
first name
last name
email address
password (of your choice)
4. After creating a new account, your email address will appear in the list of email addresses for your school and in the future you will use your password to access the skills inventory.
5. Begin / Continue your skills inventory

All Brevard teachers are now required to complete the Inventory for Teacher Technology Skills (ITTS) survey. The ITTS survey offers educators the opportunity to identify the basic skills and/or knowledge that need reinforcement through professional development activities. The inventory consists of six sections, which take approximately 6-10 minutes per section to complete. Sections may be completed separately, but a section must be completed in one sitting. If you quit a section before it is completed, all unanswered questions in that section will be scored as incorrect. At the end of the inventory you are provided with the results based on Florida's Frameworks and Indicators for Basic Technology.

More information is available at the ITTS web site, which you can access by going to the Teacher section of our district web site and clicking on the link entitled "Inventory of Teacher Technology Skills" or go to <http://itts.brevard.k12.fl.us/>
